DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Abstract

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

For this application, the abstract contains more than 150 words.

Specification

The disclosure is objected to because of the following informalities:

Specification, page 4, paragraph [008], line 2, "another embodiment" should be changed to "one embodiment".

Allowable Subject Matter

Claims 1-16 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Prior arts of record do not disclose an imaging spectropolarimeter for measuring polarization of an electromagnetic signal. The apparatus comprises: a tunable filter optically connected to receive the single polarization of the electromagnetic signal and being tunable through a frequency spectrum, the tunable filter being configured to output a plurality of electromagnetic signal samples at predetermined frequency increments, a focal plane array comprising a plurality of pixels and being configured to receive each electromagnetic signal sample and output a spectrum signal for each pixel on the focal plane array, and a processor configured to apply Fourier transformation to the spectrum signal to obtain at least one Stokes polarization vector component for each pixel in the focal plane array which structurally arranged and functionally operated as claimed in claims 1,13.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
